TEXAS
HEARING
INSTITUTE

OUR BRAND

Our brand signifies our expertise and prominence in the field of pediatric hearing loss and set the stage for serving more families across Texas. The Texas Hearing Institute strives to expand its geographic reach and provide additional services to families by building on the strong foundation of education, speech therapy and audiology that it has developed over the years.

Texas Hearing Institute is a reflection of our commitment to providing patients and students with high-quality, state-of-the-art care and education.

OUR STORY

Formerly known as The Center for Hearing and Speech, Texas Hearing Institute is the only full-service resource in Houston to teach children with hearing loss to listen and speak. Since 1947, we have helped thousands of Houston-area children gain listening, speaking and literacy skills – the tools they need to improve their quality of life and achieve success in society.

Our services include the Audiology Department, Speech Therapy Services and The Melinda Webb School.

OUR MISSION

Our mission is to enable children with hearing loss to reach their full potential by teaching them listening, speaking and literacy skills.

OUR VISION

All children with hearing loss will be identified early, families will have access to medical and educational resources, and expert professionals will provide a supportive, learning environment where self-reliance through spoken language is achieved.

WHO WE SERVE

Texas Hearing Institute serves children from infancy to age 18, as well as their parents. Texas Hearing's programs have three focus areas, the Audiology Department, Speech Therapy Services and The Melinda Webb School. Children come from over 275 ZIP codes and 36 counties, demonstrating the vital needs the Center fulfills to our community.
